

Importers

- VAT will be implemented from 1 January 2018 and goods imported shall be subject to VAT.
- All importers to the UAE should register for VAT before 31 December 2017 if their taxable supplies made and imports received exceed AED 375,000 for the last 12 months.
- FTA needs up to 20 business days to process registration applications. If the application is successful, a TRN will be issued and sent to the business.
- Once registered, a business needs to ensure compliance with the tax obligations, such as displaying the words "Tax Invoice" and TRN on all invoices, submitting tax returns, paying tax, etc.

Registration for VAT purposes will mean that an importer can defer payment of VAT, so payment shall be due on submission of the return (28 days following the tax period in which the import happened).

From 1 January 2018, import of goods that are subject to VAT into the UAE will be affected as follows:

REGISTERED

IF YOU ARE A PERSON REGISTERED FOR VAT:

Scenario	What should you do?
